Day 2 Saturday PUNTA CORMORANT, BAHÍA POST OFFICE, AND MIRADOR DE LA BARONESA, FLOREANA ISLAND 

For your second morning in the Galapagos Islands, we will be anchored in the southern part of the Archipelago at Floreana Island. After breakfast, the morning wet landing excursion will take you to a big brackish water lagoon to observe greater flamingos, ducks, black-necked stilts and other shore birds at Punta Cormorant. You will be able to observe where sea turtles nest at night, and possibly spot stingrays and sharks swimming very close to the shore.

Enjoy a splendid lunch consisting of fresh Ecuadorian recipes with an Andean twist before heading back out to Floreana to pay tribute to an old island tradition at Bahía Post Office. The visit will follow another quick tour of what once was a fishing enterprise in the 1920s before continuing onboard the tenders to visit Mirador de la Baronesa. Upon returning onboard Aqua Mare, enjoy another feast showcasing a blend of Japanese technique and Peruvian seasoning through delicacies such as the tuna tartare and quinoa yakimeshi. Stay out on the upper deck with a cocktail if you would like to admire the northern and southern hemispheres' starlit skies tonight.

Day 3 Sunday PUNTA MORENO AND BAHÍA URBINA, ISABELA ISLAND

After a night of sailing, the morning sees our beautiful superyacht anchored on the western side of Isabela Island. As the biggest and youngest island in the Archipelago, Isabela was formed by five relatively young volcanoes and is characterized by giant tortoises and marine iguanas. For the morning excursion, a hike at Punta Moreno takes us to the mangroves and gas-rich basaltic lava rocks resulting from a large basaltic lava flow which came from the Cerro Azul volcano on Isabela hundreds of years ago. There are mangrove lagoons along the shore, where you will embark on a dinghy ride to observe marine iguanas, flightless cormorants, and penguins among other species.

In the afternoon, the Aqua Mare will sail north to Bahía Urbina, a 6km² point, once underwater and uplifted in 1954 up to 3m above sea level. Here you can see land iguanas, some of the biggest marine iguanas roaming free in the Archipelago, and on occasion, tortoises as well. We'll end the day with an unforgettable view of Isabela's five volcanoes while dining on macambo rice, fish maito, and candied pear beneath the stars.

morning on shore with the option to snorkel before returning to the yacht for a sumptuous lunch.

As Aqua Mare crosses the Bolivar Channel back towards Isabela Island, prepare to channel your inner pirate for the afternoon excursion visiting Caleta Tagus, once a favorite anchorage spot for pirates and whalers. Here we will hike to see Darwin Lake, a saltwater lake trapped inside a tuff cone. If you would rather not hike, you can take your pick from our four double kayaks, snorkeling, stand-up paddle boarding, or a ride on our elegant black tenders to explore the cove and its surroundings. Return to the yacht for evening sundowners and head to the bridge after dinner for a chat with our captain as we cross the equatorial line twice

Day 5 Tuesday PUERTO EGAS, PLAYA ESPUMILLA, AND CALETA BUCANERO, SANTIAGO ISLAND

Inclusions

Breakfast, Lunch,

This morning, we'll take a tender ride to Caleta Bucanero, a 17th century pirate rest stop where pirates used to stock up on fresh tortoise meat and fresh water. In case ocean conditions are unfavorable, we'll visit Playa Espumilla instead, a golden sandy beach which is a well-known breeding ground for sea turtles.

We head back to the yacht for lunch encompassing flavors of the South American Pacific coast through specially prepared dishes like the linguine ai frutti di mare. Next, disembark on the black sand beaches of Puerto Egas, northwest of Santiago Island. You will be able to walk the intertidal zone to the fur seal grottos or snorkel to watch sea turtles, sea lions, and white-tipped sharks.

Wind down back onboard with Happy Hour over a glass of our special Aqua Bloody Mare as the crew prepares for departure to our next adventure.

Awake to the sounds of nature and a fresh breakfast before departing by tender to Rábida Island, also known as the red island. The color is the result of oxidation of very old porous lava. You will be able to hike, take out one of our double kayaks, stand-up paddle boards, or snorkel, as well as observe sea lions which have made their home on the beach.

After a delicious lunch, you can listen to an afternoon lecture presented by our expert guides in the panoramic lounge. The Aqua Mare will sail towards the north of Santa Cruz Island, to Caleta Tortuga Negra, a mangrove estuary that is home to sea turtles. This is a tender ride excursion as there is no landing site, but you will be able to spot green sea turtles, as well as blacktip and Galapagos sharks. End this glorious day discovering more of our signature cuisine courtesy of Chef Pedro Miguel Schiaffino.

Day 7 Thursday

SEYMOUR NORTE ISLAND AND MOSQUERA ISLAND 

Your penultimate day in the Archipelago begins with refreshing breakfast before heading out to Seymour Norte Island, formed by uprisings of underwater volcanic lavas some 3.1 million years ago. The island is mostly known for its healthy population of land iguanas, blue-footed boobies, swallow-tailed gulls, and great frigate birds. After a morning full of fun activities, you will head back to the yacht for a delicious lunch aboard Aqua Mare.

For the afternoon excursion, hop on to one of our tenders for a wet landing onto Mosquera Island. Although it's one of the smallest in the archipelago, Mosquera Island is one of the hotspots for spotting sea lions. Around sunset you will return to the sleek comfort of Aqua Mare for your last evening aboard. Swap notes on everything you've experienced during this most incredible adventure with your friends onboard and toast farewell with something special from our curated wine list.
